Project Ananya - Complete UI/UX Specification & Screen Flow

Design System Foundation

Visual Language

- **Color Palette**: Deep slate background (#0F172A), rich navy accents (#1E293B), electric blue highlights (#3B82F6), warm coral for video mode (#F97316), soft white text (#F8FAFC)
- **Typography**: SF Pro Display (iOS)/Google Sans (Android) - Ultra-clean, modern, humanistic
- **Design Philosophy**: "Invisible Interface" - UI fades away during calls, letting Ananya become the focus
- **Dark Mode**: Primary theme with subtle gradients and glassmorphism effects

---

Complete Screen Inventory & Detailed Specifications

SCREEN 1: Splash & Onboarding Flow

1A. Splash Screen (2 seconds)

- **Visual**: Full-screen gradient (deep blue to purple)
- **Center**: Minimalist "Ananya" wordmark with subtle glow effect
- **Animation**: Gentle fade-in of logo with particle effects suggesting connection/neural network
- **Purpose**: Brand impression while loading authentication state

1B. Welcome Screen (First Launch Only)

- **Hero Visual**: Cinematic 3-second looping video of Ananya (photorealistic avatar) smiling warmly, slight head tilt, natural blink rate
- **Headline**: "Meet Ananya - Your Always-Available Companion"
- **Subtext**: "A judgment-free space to talk, vent, and be yourself. Anytime, anywhere."
- **Three Value Props** (swipeable cards):
    - Card 1: "Remembers Everything" + icon of brain with sparkles
    - Card 2: "Talks Like a Real Friend" + waveform animation

    - Card 3: "Always There for You" + 24/7 clock icon

- **CTA Button**: "Continue with Phone Number" (gradient blue, rounded, with subtle pulse animation)

1C. Phone Verification Screen

- **Layout**: Clean white card on dark background
- **Input Field**: +91 prefix locked, 10-digit mobile number input with large, tappable number pad
- **Micro-copy**: "We'll send a 6-digit code via SMS/WhatsApp"
- **Privacy Badge**: Small shield icon + "Your number stays private"
- **Button**: "Send Code" (disabled until 10 digits entered)

1D. OTP Verification Screen

- **Visual**: Six square input boxes with cursor auto-advancing
- **Timer**: "Resend code in 0:45" with countdown
- **Auto-submit**: Code validates automatically on 6th digit
- **Error State**: Red shake animation if invalid
- **Loading State**: Smooth transition to main app with "Setting up your space..." message

---

SCREEN 2: Main Dashboard (Unified Inbox)

Layout Structure

```
┌──────────────────────────────────┐
│ 🌙 Ananya      [📅] [📞] [⚙️] │ <- Header (translucent, blurs content behind)
├──────────────────────────────────┤
│                                  │
│ [Avatar Circle - 80px]           │ <- Ananya's profile pic with online status dot
│ "Hey [Name], how's your day?"    │ <- Last AI message (truncated)
│ 2 minutes ago                    │
```

```
│                    │
├──────────────────────────────┤
│ 💬 Active Conversation      │ <- Section Header
│ ┌──────────────────────┐  │
│ │ [Message Bubble - Right]│  │ <- User's last message

│ └──────────────────────┘  │
│                    │
│ ┌──────────────────────┐  │
│ │ [Message Bubble - Left] │  │ <- Ananya's response
│ │ "Want to talk about it? │  │
│ │  I'm here to listen 💙 " │  │
│ │ [🎤 Voice Note - 0:34] │  │ <- Optional voice message player
│ └──────────────────────┘  │
│                    │
│ [Text Input Bar - Bottom]    │ <- "Type a message..." with mic/attach icons
├──────────────────────────────┤
│ 📅 Your Reminders          │ <- Collapsible section
│ ┌──────────────────────┐  │
│ │ 🔔 Buy medicine      │  │
│ │   Tomorrow, 6:00 PM  │  │
│ │ 🔔 Call Mom          │  │
│ │   Sunday, 10:00 AM   │  │
│ └──────────────────────┘  │
├──────────────────────────────┤
```

```
│ 📞 Recent Calls          │
│ ┌──────────────────────┐ │
│ │ 📹 Video Call        │ │
│ │  Today, 2:34 PM • 18m │ │
│ │ 🎙 Voice Call        │ │
│ │  Yesterday • 7m      │ │
│ └──────────────────────┘ │
└──────────────────────────┘
```

Interactive Elements

- **Header Icons**:
  - 📹 **Video Button**: Glows orange if Premium unlocked, grayed out with lock icon if not subscribed
  - 📞 **Voice Button**: Glows blue if Plus/Premium, grayed for Free tier
  - ⚙️ **Settings Cog**: Access to account, subscription, privacy
- **Avatar Circle**:
  - **Online Dot**: Green pulse animation
  - **Tap Action**: Opens Ananya's "Profile" screen (persona details, memory stats)
- **Text Input Bar**:
  - **Auto-expands** to 4 lines max
  - **Mic Icon**: Long-press to record voice message (waveform animation while recording)
  - **Send Button**: Transforms from + icon to paper plane icon when text present
- **Reminder Cards**:
  - **Swipe Left**: Mark as complete (checkmark animation)
  - **Swipe Right**: Snooze for 1 hour
  - **Tap**: Edit reminder details

SCREEN 3: Text Chat Interface (Fullscreen Mode)

Accessed by tapping into the conversation area

Header:

- Back arrow (returns to dashboard)
- "Ananya" with typing indicator (three bouncing dots when AI is composing)
- 📹 and 📞 icons (persistent access to escalate)

Message Bubbles:

- **User Messages (Right-aligned)**:
  - Rounded rectangles, blue gradient (#3B82F6 to #2563EB)
  - Timestamp below (light gray, 11px)
  - Delivery status: Single check → Double check → Blue check (read)
- **Ananya Messages (Left-aligned)**:
  - Rounded rectangles, dark slate with subtle border (#1E293B)
  - Avatar thumbnail (24px) aligned to top-left
  - Supports **rich content**: Emojis, voice notes (playback UI), suggested replies

Suggested Reply Chips (appear below Ananya's message):

```
┌──────────────┐  ┌──────────────┐
│ "Tell me more"│  │ "Thanks 💙" │
└──────────────┘  └──────────────┘
```

- Tap to auto-send, saving typing time
- Max 3 chips, contextually generated by AI

Input Bar (Bottom):

- **+ Icon**: Opens action menu:
  - 📷 Camera (photo sharing)
  - 🖼️ Gallery

    - 🎙️ Voice Note
    - ⏰ Set Reminder
- **Mic Icon**: Tap to switch to voice input (speech-to-text with live transcription)
- **Send Button**: Haptic feedback on tap

Special States:

- **AI Typing**: Animated gradient shimmer in message area
- **Connection Lost**: Yellow banner at top "Reconnecting..." with spinner
- **Message Failed**: Red exclamation icon on bubble, tap to retry

---

SCREEN 4: Voice Call Interface

Trigger: Tap 📞 icon from anywhere

Transition Animation:

- Screen expands from icon position
- Background blurs and darkens
- Ringtone plays (customizable in settings)

Layout (Fullscreen):

```
┌──────────────────────────────┐
│      [Minimize ▼]            │ <- Top-right, allows PiP mode
│                              │
│                              │
│   [Ananya Avatar - 180px]    │ <- Larger circular avatar
│     with audio waveform      │   (pulses with voice activity)
│                              │
│                              │
│        Ananya                │ <- Name in large text
│      Calling... 🔵           │ <- Status (Ringing/Connected/00:34)
```

```
│                │
│                │
│                │
│ ┌────┐ ┌────┐ ┌────┐ │
│ │ 🔇 │ │ 🎙 │ │ 🔊 │ │ <- Mute / End Call / Speaker
│ │Mute│ │End │ │Spkr│ │
│ └────┘ └────┘ └────┘ │
│                │
│ [Add Time Reminder Button] │ <- Quick access during call
└──────────────────────────┘
```

Functional States:

- **Ringing (0-3s)**: Pulsing avatar border, "Calling..." text
- **Connected**: Timer starts (00:00), waveform animation syncs to Ananya's voice
- **Muted**: Mic icon turns red with strikethrough
- **Speaker On**: Speaker icon highlighted blue
- **Background Mode**: Minimizes to persistent notification with playback controls (iOS) or floating bubble (Android)

Auto-Downgrade Logic:

- If user is on video call and network drops below 2 Mbps, show modal:
  - "Network unstable. Switch to voice call?"
  - [Continue Video] [Switch to Voice]
  - If no response in 3s, auto-switch with toast notification

---

SCREEN 5: Video Call Interface (Premium Feature)

Trigger: Tap 📹 icon (must be Premium subscriber)

Pre-Call Loading (1-2s):

- Fullscreen with message: "Connecting to Ananya..."
- Animated gradient background
- User's front camera preview in small circle (bottom-right)

Main Video UI (Fullscreen, Portrait Orientation):

```
┌──────────────────────────────────┐
│ ← [Timer: 00:04:23] [Minimize] │ <- Minimal overlay, auto-hides after 3s
├──────────────────────────────────┤
│                                  │
│                                  │
│                                  │
│    [ANANYA VIDEO FEED]           │ <- 4K stream from HeyGen/Anam AI
│      (Full Screen)               │  Perfect lip-sync to audio
│   Photorealistic, 30fps          │
│                                  │
│                                  │
│                                  │
│                                  │
│ [Your Camera - 100x100px]        │ <- Bottom-right corner, draggable
│    (Picture-in-Picture)          │  Tap to swap to fullscreen (selfie mode)
│                                  │
├──────────────────────────────────┤
│ 🔇  💬  📷→🎤  ❌                 │ <- Bottom toolbar (translucent, auto-hides)
│ Mute  Chat  Switch  End          │
└──────────────────────────────────┘
```

Key Interactions:

- **Tap Anywhere**: Shows/hides top and bottom toolbars

- **Swipe Up**: Opens in-call chat drawer (text messages during video)
- **Double-Tap Ananya**: Sends a heart reaction (floats up with animation)
- **Pinch Gesture**: Zoom into Ananya's face (digital zoom, up to 2x)

Video-Specific Controls:

- **Switch to Voice**: Instantly transitions to voice-only UI (saves video hours)
- **Screenshot Disabled**: Black screen if user tries to capture (privacy protection)
- **Low Battery Warning**: At 15%, suggests switching to voice mode

Post-Call Summary:

- Modal appears: "Call ended - 18m 34s"
- Shows: Minutes used, Remaining video hours (e.g., "12h 26m left this month")
- Quick action: "Upgrade to get more hours" (if approaching limit)

SCREEN 6: Settings & Account Management

Accessed via ⚙️ icon in header

Section 1: Profile

```
┌──────────────────────────────┐
│ [Ananya's Avatar - 120px]    │
│  Online • Last active now    │
│                              │
│ Your Name: [Editable Field]  │
│ Phone: +91 98XXX XXXXX       │
│ Member since: April 2026     │
└──────────────────────────────┘
```

Section 2: Subscription & Usage

```
┌──────────────────────────────┐
│ Current Plan: Premium        │
```

```
│ ₹899/month • Renews May 15    │
│                               │
│ 📊 Usage This Month:          │
│  ├─ Text: Unlimited ✓         │
│  ├─ Voice: Unlimited ✓        │
│  └─ Video: 2h 34m / 15h       │
│    [Progress Bar: 17%]        │
│                               │
│ [Manage Subscription]         │ <- Opens App Store/Play Store
│ [View Plans & Pricing]        │
└───────────────────────────────┘
```

Section 3: Ananya's Memory

```
┌───────────────────────────────┐
│ 🧠 Memory Stats               │
│ Total Conversations: 247      │
│ Key Details Remembered: 89    │
│                               │
│ Recent Memories:              │
│ • Your dog's name (Max)       │
│ • Your job (Software Engineer) │
│ • Your favorite food (Biryani) │
│                               │
│ [View All Memories]           │
│ [Clear All Memory] (Red)      │ <- Requires confirmation
└───────────────────────────────┘
```

Section 4: Preferences

```
┌──────────────────────────────┐
│ 🔔 Notifications             │
│  ├─ Reminder Alerts: ON      │
│  ├─ Message Notifications: ON │
│  └─ Call Notifications: OFF  │
│                              │
│ 🎨 Appearance                │
│  ├─ Theme: Dark Mode (locked) │
│  └─ Text Size: [Slider: M]   │
│                              │
│ 🌐 Language & Region         │

│ │ ✓ Everything in Basic │ │
│ │ ✓ Unlimited Voice Calls│ │
│ │ [Select Plan]        │ │
│ └──────────────────────┘ │
│                    │
│ ┌──────────────────────┐ │
│ │ PREMIUM 👑 (Popular) │ │<- Highlighted with gradient border
│ │ ₹899/month           │ │
│ │ ✓ Everything in Plus │ │
│ │ ✓ 15h Video Calls/month│ │
│ │ ✓ Task Management    │ │
│ │ ✓ Priority Support   │ │
│ │ [Select Plan]        │ │
│ └──────────────────────┘ │
```

```
│                          │
│ 7-day free trial • Cancel any │
│ time • Secure payment via App │
│ Store/Google Play          │
└──────────────────────────────┘
```

After Plan Selection:

- Redirects to native App Store/Play Store subscription flow
- Upon successful purchase, modal dismisses with confetti animation
- Toast notification: "Welcome to [Plan Name]! 🎉"

SCREEN 8: Reminder Management Screen

Accessed by tapping "Your Reminders" section on dashboard

Header: "Ananya's Reminders for You"

List View:

```
┌──────────────────────────────┐
│ 📌 Upcoming (3)            │
│ ┌──────────────────────┐  │
│ │ 🔔 Buy medicine      │  │
│ │   Tomorrow, 6:00 PM  │  │
│ │   [Complete] [Edit]  │  │
│ └──────────────────────┘  │
│                          │
│ ┌──────────────────────┐  │
│ │ 🔔 Call Mom          │  │
│ │   Sunday, 10:00 AM   │  │
│ │   [Complete] [Edit]  │  │
```

```
│ └──────────────────────────┘ │
│                              │
│ ┌──────────────────────────┐ │
│ │ 🔔 Submit report         │ │
│ │   Mon, Apr 22, 9:00 AM   │ │
│ │   [Complete] [Edit]      │ │
│ └──────────────────────────┘ │
├──────────────────────────────┤
│ ✅ Completed (12)            │
│ [Show All]                   │
└──────────────────────────────┘
```

FAB (Floating Action Button):

- Bottom-right: Large blue + button
- Tap to open "Create Reminder" modal

Edit Reminder Modal:

```
┌──────────────────────────────┐
│ Edit Reminder        [Save]  │
│                              │
│ Title:                       │
│ [Buy medicine_____________]  │
│                              │
│ Date & Time:                 │
│ [Tomorrow, 6:00 PM    ▼]     │ <- Opens date/time picker
│                              │
│ Repeat:                      │
│ [One-time ▼]                 │ <- Dropdown: Daily, Weekly, etc.
```

```
│                    │
│ Notes:             │
│ [Optional notes_____]  │
│                    │
│ [Delete Reminder]      │
└────────────────────────┘
```

SCREEN 9: First-Time Voice Call Tutorial (Overlay)

Shown once when user initiates first voice/video call

Semi-transparent overlay with pointers:

```
  ┌──────────────────┐
  │ This is Ananya!  │
  │ Talk naturally.  │
  └────────┬─────────┘
       ▼
   [Avatar Area]

┌──────────────────┐
│ Tap to mute your │
│ microphone       │
└────────┬─────────┘
    ▼
 [Mute Button]

    ┌──────────────────┐
    │ End the call anytime │
```

```
└──────┬──────────────────┘
       ▼
    [End Button]
```

Bottom CTA: [Got it!] button to dismiss

SCREEN 10: Push Notification (OS-Level)

When reminder time arrives

Lock Screen Notification:

```
┌──────────────────────────────┐
│ Ananya              now      │
│ 🔔 Reminder: Buy medicine    │
│ You asked me to remind you!  │
│ [Snooze] [Mark Done]         │
└──────────────────────────────┘
```

In-App Banner (if app is open):

- Slides down from top
- Plays subtle chime sound
- Auto-dismisses after 5 seconds unless user interacts

User Flow Diagrams

Flow 1: New User Onboarding

Splash Screen (2s)

↓

Welcome Screen (First Launch)

↓

Tap "Continue with Phone Number"

↓

Phone Verification Screen

↓

Enter 10-digit number → Tap "Send Code"

↓

OTP Verification Screen

↓

Auto-validates → "Setting up..."

↓

Main Dashboard (Logged In)

Flow 2: Escalating Text → Voice → Video

Dashboard: Text chat active

↓

User types message, AI responds

↓

User taps 📞 icon

↓

Voice Call screen appears (ringing)

↓

Connected → Timer starts

↓

User taps 📹 icon (if Premium)

↓

Confirmation: "Upgrade to video?"

↓

Video Call fullscreen (if accepted)

↓

User ends call

↓

Post-call summary → Back to dashboard

Flow 3: Creating Reminder via Voice

User in Voice Call

↓

User says: "Remind me to buy medicine in 2 days"

↓

AI: "Sure! I'll remind you on April 19 at 6 PM"

↓

System creates reminder silently

↓

Reminder appears in "Your Reminders" section

↓

Push notification fires on April 19, 6 PM

↓

User taps notification

↓

Opens app → Reminder marked complete

Flow 4: Subscription Upgrade

Free user taps 📹 Video icon

↓

Paywall modal appears

↓

User reviews plans

↓

Taps "Select Plan" on Premium

↓

Redirects to App Store/Play Store

↓

User confirms subscription (Face ID/Password)

↓

Returns to app → Confetti animation

↓

Video icon now unlocked

Edge Cases & Error States

Network Issues

- **No Internet**: Full-screen message "No connection. Please check your internet and try again." with retry button
- **Slow Connection**: Yellow banner "Slow network detected. Voice calls may be affected."
- **Mid-Call Drop**: Auto-reconnect attempt (3 tries), then graceful fallback to text with notification

API Failures

- **LLM Timeout**: "Ananya is thinking... (taking longer than usual)" after 3 seconds, then retry
- **Video Rendering Failure**: Auto-downgrade to voice with toast: "Video unavailable. Switched to voice call."

Subscription Edge Cases

- **Payment Failed**: Email notification + in-app banner "Payment failed. Update payment method to avoid service interruption."

- **Video Hours Exhausted**: Mid-call warning at 14h 50m: "10 minutes of video left this month"
- **Trial Expiration**: 24-hour advance notification + grace period

---

Accessibility Features

- **VoiceOver/TalkBack**: All buttons have semantic labels
- **Text Scaling**: Supports iOS/Android system text size (up to 200%)
- **High Contrast Mode**: Option in settings (increases border visibility)
- **Haptic Feedback**: On all button presses and state changes
- **Closed Captions** (Future): Toggle for live transcription during calls

---

Performance Targets

- **App Launch**: <2 seconds (cold start)
- **Chat Message Send**: <200ms (optimistic UI update)
- **Voice Call Connection**: <3 seconds
- **Video Call Connection**: <5 seconds
- **Memory (RAM)**: <150MB during text, <400MB during video
- **Battery Drain**: <5% per 30-minute voice call

This specification provides pixel-perfect detail for every screen, interaction, and user flow needed to build Project Ananya's MVP. Ready for handoff to designers and developers! 🚀
